

Dr Ferhat Cengiz

Ferhat Cengiz is an accomplished Senior Embryologist with extensive experience in the field of assisted reproductive technologies (ART). Born and raised in Istanbul, Turkey, he embarked on his academic journey at Istanbul University, where he earned his Bachelor of Science in Biology from 1999 to 2003. His passion for embryology led him to further his studies at Trakya University's Faculty of Medicine, where he obtained a Master of Science in Histology and Embryology between 2008 and 2010.

Ferhat's professional career began as an Andrologist at TümLab Andrology Laboratory in Istanbul, where he worked from 2005 to 2007. He then transitioned to the role of Embryologist at Memorial Hospital IVF Lab in Şişli, Istanbul, a position he held until 2011. Over the next decade, Ferhat climbed the ranks in various prestigious hospitals across Istanbul, including UHG German Hospital, Liv Hospital, and Bahçeşehir University Göztepe Medical Park IVF Lab, culminating in his current role as the IVF Lab Director at Medistate Hospital since April 2023.

Throughout his career, Ferhat has been deeply involved in research and has contributed to numerous scientific articles and book chapters focusing on topics such as male infertility, the role of animal products in reproductive health, and advanced surgical methods to enhance fertility. His work is well-regarded in the scientific community, evidenced by his publications in peer-reviewed journals and presentations at international conferences.

Ferhat is also committed to ongoing professional development and education. He has participated in various training programs and has obtained several certifications relevant to ART, including Senior Clinical Embryology Certification and Embryology Laboratory Specialist Certification. His dedication to advancing his field is further demonstrated by his involvement in symposiums and workshops worldwide, where he often serves as a speaker.

Ferhat's dedication to embryology and his contributions to the field through practice, research, and education mark him as a leading expert in reproductive health, continually striving to improve outcomes

“ Outside of his professional life, Ferhat is passionate about travel, technology, swimming, and reading. He is fluent in English and has basic knowledge of German, which enables him to engage with international colleagues and stay updated on global advancements in his field. ”
